■ Current issues

Content	Platform		
	PS4®	Xbox One	Steam
The following issues were confirmed to occur on the SEASIDE EDEN stage: The Coconut Danger does not operate correctly. If "OBJECT DISPLAY" setting is set to OFF in Graphics settings on the PC version or during online play, a replay of a match where a collision with a palm tree occurred will not play correctly. These issues will be addressed in the future updates. Thank you for your understanding.	○	○	○
